UTAX HealthPack:
SOLUTIONS FIT FOR PURPOSE

Printing on the move with added security UTAX HealthPack

Healthcare providers need printing and scanning in the practice and in the community. With the UTAX HealthPack, we can provide easy to use solutions that provide secure printing. Useful for all areas of healthcare, from Charities to NHS Trusts and Dentists to Vets.

Print in surgery or in the field, confidentially and quickly

Whether you are on a ward round or providing a service in the community, we all need to print and scan documents such as time sheets. The UTAX HealthPack offers just this functionality. Secure on demand printing from mobile devices, working with the UTAX printer and MFP range make this pack a great fit for any healthcare provider.

Printing and scanning does not need to be a major operation

The UTAX HealthPack provides, not only mobile operation, but patient confidentiality, local printing, data security and integration to existing document or clinic management systems. With patient confidentiality at the heart of what you do, here is how UTAX can help.

LOCAL AND MOBILE PRINT AND SCAN

- Securely print to local printers as well as large MFD's.
- Print from mobile devices in the surgery, clinic or community.
- Scan timesheets etc. back to the office for immediate processing.
- Integrate into Cloud Storage solutions.

- Integrate into existing systems for a more streamlined working
- Industry standard digital signatures.
- If you require a legal signature on a mobile device, the UTAX HealthPack can provide the answer.

PATIENT CONFIDENTIALITY

- Documents print on demand at larger devices.
- A range of small printers for consulting room / prescription printing.
- Scanning to mobile devices or integrating with any existing software applications.
- Secure cloud print and scan.

- Security watermarks can be added for printing and copying documents and patient records.
- Only authorised users can access the system.
- Device data security kits and document encryption.
